## Mini Projector for iPhone® 4/4S

The LogiLink AA0023 is easy to use - just dock your iPhone 4/4S and project on any surface. Offering 640x360-pixel native resolution, this accessory displays an image with a diagonal measurement of 60 inches, from the distance of around 3m. It works with any app that supports dock-connector video out. The 15-lumen LED lamp ensures clearer, more brilliant images than other pico projectors. Focus adjustment lets you control image clarity while the integrated 0.8W speaker delivers the audio. Its own power source in the form of 2,100 mAh battery charged via a USB cable, enables the mini projector to double as a back-up battery for your iPhone.

**Feature:**

- Slim, portable Design for iPhone 4/4S
- Can project the videos and images downloaded and shot by iPhone 4/4S
- It with built-in loudspeaker, enhance the volume function while playing
- Can recharge independently for iPhone 4/4S
- Can be charged through an external power adapter or PC through USB interfaces. It will turn to charge the iPhone 4/4S after the battery of this product is full
