

LogiLink®

Master/Slave Outlet Strip 8-way, 1.5 m

Art. No.: LPS301

The master/slave power strip from LogiLink turns your devices automatically on and off. Just plug the master device (for example, a computer) into the master socket and the other devices such as display, speakers etc. into the slave socket and the master/slave power strip is ready to use. The power strip automatically detects when the master requires more power and turns on all sockets, as soon as the master requires less power all slave sockets will turn off.
